

## CALARIS TANK MIX LIST

The following tank mixes have been tested for physical compatibility with CALARIS at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta IRL Ltd will support 2-way tank mixes of CALARIS with any of the fungicides and herbicides listed. For further information on compatibilities, contact Syngenta IRL Ltd.

### FUNGICIDES

Comet 200

### HERBICIDES

DUAL GOLD  
PDM 330EC

Stomp 400

Stomp Aqua

### TRACE ELEMENTS

Syngenta IRL Ltd will support the tank mixing of any of the named trace elements with any existing 2-way tank mix including CALARIS. Syngenta IRL Ltd advise that the trace element part of the tank mix is added to the sprayer tank last with constant agitation and the mixture is sprayed without delay.

|--------------------------------------|-----------------------------------|--------------------------------|
| Headland Jett                        | Nutrel Maxman 400*                | YaraVita Magphos K             |
| Headland Maize Micronutrient Complex | Nutrel Nutrichel CaB*             | YaraVita Maize Boost           |
| Headland Stag                        | Nutrel Nutrifast Catalyst*        | YaraVita Mancozin              |
| Libspray 211                         | Vital 975                         | YaraVita Mantrac Pro           |
| Nutrel Fastmix K-Man*                | YaraVita Bortrac 150              | YaraVita Seniphos              |
| Nutrel Fastmix Manganese*            | YaraVita Coptrel 500 <sup>1</sup> | Yara Vita Zintrac <sup>1</sup> |
| Nutrel Fastphyte Complete*           | YaraVita Croplift Pro             |                                |
| Nutrel Fastphyte High K*             | YaraVita Magflo 300               |                                |

### NOTES

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

\*Nutrel trace elements are all supported/tested by Nutrel.

<sup>1</sup> Continuous agitation at all times.

CALARIS is INCOMPATIBLE with Nutrel Maize Micro Booster.

LERAP: Category B.

Rainfastness: 1 hour
