

DEFY TANK MIX LIST

The following tank mixes have been tested for physical compatibility with DEFY at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance therefore, use is at the user's own risk. Syngenta IRL Ltd will support the physical compatibility of 2 or 3-way tank mixes of DEFY with any of the herbicides or insecticides listed. In addition, products **highlighted** have been tested for biological and physical compatibility. For further information on compatibilities, contact Syngenta IRL Ltd.

HERBICIDES

| | | |

| YaraVita Croplift Pro** | YaraVita Mancuflo** | YaraVita Zintrac 700** |
| YaraVita Ferleaf** | | |

NOTE(S)

Before using any tank mixture, consult and comply with the recommendations of the partner products. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

* Constant agitation at all times.

** YaraVita trace elements are supported/tested by Yara.

¹ Corteva supported mix

² Adama supported mix

³ Pre-em only

⁴ Bayer supported mix

⁵ Belchim supported mix (up to 10% emergence of crop – check latest label)

⁶ Pre-em only on barley

⁷ Interfarm supported mix

15 February 2022

When DEFY is used in mixture with the following herbicides do not exceed the maximum rates stated for the partner product:

| | Diflufenican (DFE) | Pendimethalin |
|-------------|-------------------------------|----------------------|
| DEFY | 100 g/ha | 1200 g/ha |

Use plant protection products safely. Always read the label and product information before use.
