

SCORE TANK MIX LIST

The following tank mixes have been tested for physical compatibility with SCORE at recommended rates of use and will mix in the sprayer tank. No tests have been undertaken on crop safety or product performance, therefore use is at the user's own risk. Syngenta IRL Ltd will support the physical compatibility of 2 or 3-way tank mixes of SCORE with any of the fungicides, herbicides or insecticides listed. For further information on compatibilities, contact Syngenta IRL Ltd.

FUNGICIDES

AMISTAR	Caramba	Folicur
---------	---------	---------

HERBICIDES

Astrokerb Butisan S	Falcon Fusilade Max	Katamaran Turbo Kerb Flo
------------------------	------------------------	-----------------------------

INSECTICIDES

Cypermethrin	Decis Protech	KARATE ZEON
--------------	---------------	-------------

TRACE ELEMENTS

Syngenta IRL Ltd will support the tank mixing of one of the named trace elements with an existing 2 or 3-way tank mix including SCORE. Syngenta IRL Ltd advise that the trace element part of the tank mix is added to the sprayer tank last with constant agitation and the mixture is sprayed without delay.

NOTES

The user should ensure that all products to be tank mixed with SCORE are approved for use on the crops which are to be sprayed. Always refer to other manufacturers' product information when mixing to ensure correct product use. Each product should be added separately to the bulk of the water in the spray tank and thoroughly mixed before adding the next chemical. Always use constant agitation of the sprayer tank during mixing, transportation and application. Spray immediately.

Syngenta will NOT support the tank mixing of any other liquid nitrogen formulation with SCORE.

Syngenta IRL Ltd will NOT support an autumn 4-way tank mix with an insecticide.
